

# Aluminum Metallic ID Card Holder

The Metal holders are made up of Aluminum Metal and are durable in every sense, ultimately keeping your ID card safe from damage. The metallic cardholder's smooth finishing provides an elegant and attractive look to the ID card set and provides safety from weathering, breakage, and scratches. We also have Push-button holders, which makes it more elegant. We offer the metal holder in different colors like Golden, Silver, Red, Black, and Blue.

ID Cards are not only important for identity but also security and safety reasons. Mostly all people related to the Public organizations, Government organizations, and educational institutions are bound to wear an ID card as it is mandatory. The validities of these ID cards vary from months to years. Hence the ID card must be kept safe and secure from various aspects such as weathering. We at Bharti have been providing ID card along with the Metal PVC ID Cardholder.

To fulfill the client's requirement of the ID cardholders, we have the metal cardholder in Vertical (Portrait) and Horizontal (Landscape) shapes. The two-way transparent protection film protects your ID card from scratches. The basic Metal ID cardholder is to hold the PVC card of the size 54mm X 86mm and vice versa. Also, jumbo metal holders are there for the PVC card of size 70mm X 100mm. For Exhibitions and Public Events, these types of ID cardholders are most suitable to make it an attractive gear and give you a modern and premium look compared to the old fashioned ID card set.
